*Reasons for Allowance*

1. Claims 1-86 are allowed.
2. The following is an examiner's statement of reasons for allowance:

While Mozumder (5,408,405) teaches controlling a plurality of process control variables in a discrete system utilizing process models with plurality of parameters associated with plurality of control variables including exercising statistical quality control tests on the parameters is measured at intervals and continue processing when the statistical quality control tests are successful.

Lim discloses optimizing a relationship of variables associated with a process including obtaining a vector of step response coefficients by performing plant tests on the process such as a pseudo-random binary noise test (PRBN).

Gabriel discloses a self-adaptive organizing controller that capable of adjusting the characteristics in accordance with a changing environment.

And Stoddard discloses a run-to-run controller for controlling manufacture processes including one or more internal models with user interface allows users to utilized their own models for run-to-run control.

None of these references taken either alone or in combination discloses a method and device of modeling a process system having all the claimed features of applicant's instant invention, specifically including: "augmentation of an initial model using 'shadow system variables' that are 'essentially copies of the input' manipulated variables wherein each shadow system variable has no other model curves except against its own manipulated variables to control the subject process system with large independent step changes in one shadow system

variable at a time." Also, there is no motivation to combine the ... reference with the ... reference to meet these limitations. It is for these reasons that applicant's invention defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
